1. Terms of Use

Welcome to Scar_'s eBook describing how get free Chinese tablets, phones, and other electronics from various websites. Before we begin, I would like you to read these TOS.

TOS

- You will not chargeback on your purchase of this eBook*
- This method is not guaranteed, it is up to you and your creativity*
- You will need to know English for this, without it you are scamming*
- You are not required to create a review, but it is appreciated*
- A scam report will be opened if you charge back*
- This method is completely legal, as long as you complete it*

If you do not agree with one or more of the above, please close and delete this document.

2. Introduction

To start off, thank you for your purchase! Within this eBook I will discuss the method I use to get free tablets, phones, electronics, and other items from Chinese sellers online. Things I have received while doing this includes 2 7" tablets, headsets, phone cases, tool sets, and much more.

This is the first time I've decided to release this, and because I don't want all too many people using it, a limited number of 15 copies are available. If you are reading this, then congratulations, you are one of the lucky 15!

The method contained in this eBook is 100% my idea, and has done wonders for me. I receive new items at least once a week and you can get much more depending on how much effort you put into it.

The method is 100% legal, and both parties will be happy with the outcome assuming you complete your side of the bargain.

3. Proof

What's a method without proof? Worthless. Here are some recent items I have received by using my niche.

Chinese Headset, I use it on Skype.

Samsung Galaxy SII Phone Case – It protects my phone

7" Tablet, I do my eReading on this thing.

4. The Method

Finally, here is the method you have been waiting for! The method to my niche is translating sales articles for Chinese sellers. For every translation I do, I receive a free copy of the item I'm translating for. I have gotten email from OTHER sellers asking me to translate for them, and have set up quite a network, doing maybe 5 or 6 translations per month. The best I have gotten so far is a \$210 10.1" tablet which has not yet arrived. I finished the translation work in about an hour. This method will work for everything imaginable, from cables, tablets, phones, cases, mini computers, and much more.

So how do we contact these sellers? We do so by using email. Go to [Google.com/mail](https://www.google.com/mail) and create a new account with a realistic sounding name. I usually use "Samuel Davis" or another generic American/British sounding name. They are more likely to do business with you if you sound professional than if an email with the name "hfhaxxorzgurl123@gmail.com" contacts them.

Take a look at the sites in section 5 to get an idea of where to look. Look for articles with horrible English grammar in them, you should know what they look like. Here is a good example:

FAQ:

1.

Q: why you have different prices in your shop?

A: you may see different prices for same item, it is because that we use different shipping way and we have some old listings which price were not changed in time, you can just find the best price and buy if it is the same product. And it doesn't mean that low price is low quality, they are the same products;

2.

Q: Why there is free shipping but when i click and there is no free shipping?

A: it is because we have to set up a free shipping service to certain countries so as to have a good rank on aliexpress. But you can see our price is lower than other free shipping item, as everybody knows " free shipping" doesn't really mean "free shipping", all sellers have added the shipping cost to the item price;

3.

Q: What shipping method should i choose to ship to my country?

A: 1.Customers from Russia, Brazil,Turkey,Ukraine, Beluras etc. please choose China post airmail ONLY which normally takes about 10-60 days to arrive, And we will declare the package as gift and value under 30\$. If there is any customs duty, the buyer should pay for that. Customers from Italy, Spain, UK, Netherlands, Germany, France, Austria, Denmark, Norway, Swiss, Switzerland, Finland, Belgium, Bulgaria, Australia, ,New Zealand, USA, Canada, South America and Middle America, we suggest you to choose DHL as shipping method because DHL is the fast and good way to these countries which normaly 3-4 days to arrive. And we will declare the item as ebook reader or samples and low value like 30\$ to minimize the customs tax if there is any.

4.

Q: Do you do OEM Service?

A: yes. we are a real factory and we can print your logo on the tablet pc and boxes and we can put your logo when tablet pc turns on or the wall paper can be preset to your logos

As you can see, this is a perfect example of poor English. This seller has not invested money in a translator because most translators are too expensive. This is where you come in. You will send them an email containing something similar to the email I have sent below. It's a canned speech, I sent out about 10-20 emails at a time.

Hello,

I noticed that there are a large amount of grammatical and sentence structural errors in the description of your product. I'm a college student and have had more than 10 years of English language experience. I would be more than happy to provide you with a 100% grammatically correct description translation in exchange for one of these mini Android computers.

Please let me know what you think of my offer,

Then simply wait a few days for a response, and you will receive one or more responses similar to the one below.

Michelle-

I have noticed this point also,just translate from one of our Chinese colleague,there are some mistake indeed.

but our stock is not so enough at present,let's keep in touch and I will consider to ask for help from you middle of June,

my email: .com">michelle@.com

Once you have received a response, it is up to you to come to terms with the seller, but the article I showed above (the poor English example) took me a little over 40 minutes to successfully translate into correct English. For that service, I received the tablet shown earlier.

5. Sites to Target

There are a number of websites I frequent on the hunt for poor English. Some of them include:

<http://www.ebay.com>

<http://www.aliexpress.com>

www.xt-box.com

www.androidinabox.com

<http://www.focalprice.com/>

Many more can be found by searching Google for terms such as “China tablet sale” or “Chinese electronic warehouse”.

On your first try, go for something cheap ($\$10 < X < \20). After they get to know you and you build up trust, they will offer you the higher priced items.

6. Thank You

Once again, thank you for your purchase. If you need any help writing your own canned speeches or help finding your first deal, don't hesitate to contact me via PM or Skype.
